Hi there! My name is Frederick W. Bekker and I am keen to be your next elected representative. We all know that although WSU is a great Uni, there are a lot of things that we can improve upon. We are coming together in 2021 to bring you a new and revamped platform which we are hoping will benefit every student. Having a student advisory group on academic school boards, free university supplies such as notebooks and pens for all students because finances should be no barrier to education, and large social events with other universities for increased social collaboration, are just some of the ideas that we want to bring to you this year. This 2021, make sure you vote dream team - not for us – but for your university experience.

I am very diligent and highly motivated student. I have always been inquisitive and involved in student body affairs. This unique opportunity at Student Representative Council (SRC) will give me a platform to officially make a difference for everyone in the University. This role brings many perspectives with it; like helping students voice out their opinions and making sure they are heard by the right crowd, bridging the gap between faculties and students to help each other understand the worth of knowledge and experience. I have been closely looking at our association level work and there is need for a change for a better student experience and voice out the issues as well.

I would be honoured to be responsible for representing and promoting the interests of students to the University and the wider community. BALLOT: PRESIDENT

PARKAR, Rameez

19290573

Rameez Parkar

Hi I'm Rameez. I never thought I would ever run for the Western SRC but I don't think I could sit by quietly any longer. That's why I put my hand up to be a representative. For too long now the students of Western Sydney University have had their interests ignored. Like many students, my "uni life" consists of coming to class and going home because there is not enough to do on campus. That is why I started a student club and that's why I've run for the SRC. I think that so much can be done to serve the interests of students and that is what I have been doing over the last year as a representative. There has never been a more important time for strong progressive, principled and pragmatic students representatives fighting for us! Let's make WSU even better! Vote [1] Rameez Parkar and JUMPSTART!

BALLOT: PRESIDENT

PREUSS-KEARNEY, Simon

18638811

Simon Preuss-Kearney

Being the president is about taking responsibility in leadership for the SRC and for ourselves.

To achieve this a President must be a voice for all students across every campus. In this position of SRC President, it is my commitment to lead for every student by being that advocator, listening to all campus voices and working with their representatives.

My goals to achieve this start with:

- **Advocating for live graduations and getting the 'live-education' option we deserve.**
- **Promoting events on campus,**
- **Improved support for disability,**
- **Paid student opportunities,**
- **A more sensible club funding system and,**
- **Being friendly and approachable (with a joke always ready) - across all campuses.**

These goals are not tokenistic, as too often similar statements are. I have proven this during my 2020 Kingswood SRC role. Rather, these are only the start.

Vote for a president with strength and integrity, as leadership and action start with us!

The role of the president of the Student Representative Council is of a great degree of importance in which they reside in a position with great potential to lead enactments of greater degrees of good and to best represent the best interests and forces for good throughout the university, especially paying close tribute to the wider student body, as represented through the greater body of students' voices symbolised through the other representatives within the SRC. The great degree of personal importance to myself is to enact positive and inclusive change that is thorough, continuous and conclusive in ensuring that all students' voices can be properly voiced and to establish a network, with primary regard to the SRC, in which problems, solutions, ideas, and advancement opportunities can be voiced and enacted for the greater good. Continuing, the assurance that the educational, social, and cultural inclusivity and advancing opportunities can be.

As a second generation Indian Australian I feel a new perspective could be given to the Academic Senate. In my perspective for these University elections to represent the university there should be more voices of colour on the table. From my understanding diversity and inclusion is the gathering of people with different backgrounds, genders, political views, and cultures. However, more than just being gathered in a workplace, they each give their opinions and thoughts in the matter at hand to come up with the best possible result. All this being done with respect and without prejudice.

As a result, through that position, the needs of all individuals can be best addressed to ensure proper and equal treatment, access, and advancement within and throughout the university. The betterment of facilities in addition to this, as well as creating more and better spaces especially based on necessity poses an equally significant role in this in that all students have the opportunity to better their path of education, as well as a better degree of engagement with university life as well as an important degree of inclusiveness to embrace all students within their desired aspects of university life, and bettering education access and opportunities where possible and needed. BALLOT: ETHNO-CULTURAL REPRESENTATIVE

Crystal RAM

I'm a candidate at our student elections, and a CURRENT member of the SRC; I want to continue to JUMP START WSU. Currently on the executive of Student Clubs, I want to put my leadership experience to work for all of WSU.

This election is very important because our voice will be listened to. This will happen unless you do not vote. And other students' ideas and thoughts will be heard. I'm the right person to do this job. In the first place, I'm a very responsible person and I love speaking before an audience. Second, if you vote for me, I will speak out for your complaints and problems that I'm sure you have on campus.

I have a plan for a series of fundraising events where all clubs and societies support one another and bring in new contributions.

Remember CRYSTAL and JUMPSTART when you vote.
